

Biological Full-forms

- * MMC - Megaspore Mother Cell
- * PEN - Primary Endosperm Nucleus
- * PEC - Primary Endosperm Cell
- * GnRH - Gonadotropin Releasing Hormone
- * WHO - World Health Organisation
- * STD - Sexually Transmitted Disease
- * MMR - Maternal Mortality Rate
- * IMR - Infant Mortality Rate

Biological Full-forms

- * HIV - Human Immunodeficiency Virus
- * ELISA - Enzyme linked Immuno-Sorbent Assay
- * SCP - Single Cell Protein
- * LAB - Lactic Acid Bacteria
- * AIDS - Acquired Immune Deficiency Syndrome
- * STP - Sewage Treatment Plant
- * ATS - Anti-tetanus Serum

Biological Full-forms

- * MSH - Melanocyte stimulating hormone
- * PCT - Proximal convoluted tubule
- * SA node - Sinoatrial node
- * TLC - Total leucocyte count
Total lung capacity
- * STH - Somatotrophic hormone
- * RNase - Ribonuclease
- * Rh - Rhesus

Biological Full-forms

- * TV - Tidal Volume
- * IRV - Inspiratory Reserve Volume
- * ERV - Expiratory Reserve Volume
- * RV - Residual Volume
- * IC - Inspiratory Capacity
- * EC - Expiratory Capacity
- * FRC - Functional Residual Capacity
- * VC - Vital Capacity

Biological Full-forms

- * EEG - Electroencephalogram
- * EMP - Embden-Meyerhof Pathway
- * ESR - Erythrocyte Sedimentation Rate
- * FSH - Follicle Stimulating Hormone
- * GH - Growth Hormone
- * GHP - Glomerular Hydrostatic Pressure
- * hCG - Human Chorionic Gonadotropin
- * HDL - High-density lipoprotein
- * LDL - Low-density lipoprotein
- * LH - Luteinizing hormone
